**Staff Assignments:**

Don Andre, P.E. – Project Leader  
John Mueller, R.L.S. – Assistant Project Leader  
Ryan Jarvis, E.I.T. – Civil Engineer

**Project Scope:**

This urban project in the City of Barron involved the pavement replacement of 2.88 miles of Division Avenue which was constructed under traffic in four stages. Work involved milling, HMA pavement, concrete sidewalk, curb and gutter replacement, storm sewer, concrete safety islands, pavement marking, and the epoxy overlay of Structure B-03-113.

Services provided by Fleming, Andre & Associates, Inc. on this project included survey, construction inspection, materials sampling, measurement of quantities, project record keeping, and the completion of project finals.
