**Staff Assignments:**

Don Andre, P.E. – Project Leader  
Anthony Larson – Support Staff  
Donald Bertrand – Support Staff

**Project Scope:**

This project involved the rural resurfacing of 15.745 miles of the WB lanes of WIS 29 and 15.725 miles of the EB lanes of WIS 29 in Chippewa County. Work included concrete pavement repair and replacement, removing asphaltic surface milling, pulverize and relay, concrete pavement, concrete curb and gutter, concrete surface drains, HMA & SMA pavement, base aggregate dense, rumble strips, beam guard and guardrail, permanent signing and pavement marking.

Fleming, Andre & Associates, Inc. provided construction inspection, materials sampling, measurement of quantities, project record keeping and the completion of project finals.
