Staff Assignments:

Ky Anderson – WisDOT Support Staff

Project Scope:

This rural bridge replacement project involved the construction of Structure B-55-0266, a 2 span 45W” prestressed concrete girder bridge, on WIS 128 over IH 94 in St. Croix County. Work consisted of removing the existing Structure B-55-0021, constructing Structure B-55-0226, excavation common, borrow, base aggregate dense, HMA pavement, steel plate beam guard, storm sewer, culvert pipe, concrete sidewalk, concrete curb and gutter, erosion control, traffic control, pavement marking and permanent signing.

Fleming, Andre & Associates, Inc. provided support staff services for WisDOT assisting with construction inspection, materials sampling, measurement of quantities, project record keeping, and the completion of project finals.
